OVER 350 STUDENT GROUPS JOIN STATEWIDE LETTER TO GOVERNOR AND LEGISLATURE TO MAKE COLLEGE MORE AFFORDABLE

NYPIRG unveils coalition of hundreds of groups calling for a tuition freeze and increased state funding to CUNY and SUNY

Albany, NY – This week, the New York Public Interest Research Group (NYPIRG) unveiled a coalition of over three hundred and fifty student groups and organizations from colleges and universities across the state calling on the New York State Legislature and the Governor to increase state aid to the City University of New York (CUNY) and the State University of New York (SUNY), reject an extension of the "rational tuition" hikes, and freeze tuition at 2015-2016 academic year rates.

As students are facing five more years of tuition hikes, thousands are speaking out. In December, student groups from across the state delivered 28,000 petitions in our Capitol urging the Governor and Legislature to freeze tuition. In February, over 450 college students, faculty and staff converged on Albany for meetings with close to 100 legislators. And today, over 350 student groups come together again in a coalition letter to our elected leaders.

Part of the SUNY 2020 legislation, signed into law in 2011, allowed SUNY and CUNY to raise tuition by \$300 per year over the course of five years. According to SUNY Chancellor Nancy L. Zimpher, the law enacted by Governor Cuomo would institute "fair, predictable and responsible" tuition increases, allowing students and their families to plan over five years. However, the state's so-called "rational tuition" policy has caused tuition at public colleges to skyrocket – increasing by over 30% in just five years.

At the same time, state funding for SUNY and CUNY has remained largely flat over the last several years, even while the cost to maintain SUNY and CUNY's existing services has increased by nearly \$200 million. The state has made up the difference using tuition dollars. So-called "rational tuition" has merely shifted the burden of operating New York's public college from the state to college students and their families. What's more, the Governor has shifted \$485 million from CUNY in his Executive Budget. Without a new source of revenue this shift becomes a cut.

This year, the Assembly and Senate budget proposals prioritize higher education by including a tuition freeze and a real Maintenance of Effort (MOE) provision to provide stable funding for CUNY and SUNY. The Assembly proposal goes one step further by fully restoring the \$485 million funding cut included in the Executive Budget. We call on the Governor and Assembly and Senate leadership to maintain the tuition freeze, MOE, and full funding for both university systems in the final State Budget.

"As New York has cut its investment in public higher education, students have been forced to pick up the tab. Hundreds of student groups from Buffalo to Long Island have joined together to say enough is enough. With New York slated to end the year in a surplus, the final budget must freeze tuition and fully fund SUNY and CUNY." – Alex Bornemisza, Chairperson, New York Public Interest Research Group and SUNY Buffalo State College Student

"New York Students Rising signed on to the tuition freeze letter because with these tuition increases, higher education is becoming a privilege in a country where it has been made into a necessity. These increases are not necessary. They are convenient to the state, as it is a way for them to cut funding and instead put the burden onto students. It's blocking access to marginalized groups of people and discouraging students from pursuing higher education. We believe higher education is a human right and should be affordable and accessible to all and any prospective students."- Nicole Striffolino, Organizer, New York Students Rising, SUNY New Paltz Student

"Governor Cuomo's proposed tuition hikes and \$485 million budget cut to CUNY attack the American dream we embody and the unique mission of CUNY. Even with the budget deadline a few days away, it is not too late for Governor Cuomo and the state legislators to turn the tide of austerity currently sweeping the nation and drowning students in debt and tuition hikes. Now is the time for investment to ensure a quality and affordable higher education. Now is the time to freeze tuition and increase state aid to our public higher education institutions."- Joseph Awadjie, University Student Senate Chairperson & CUNY trustee, Brooklyn College Graduate Student.

"Being a college student in current times is exhausting in almost every aspect. In almost every representation of typical college life, we are construed as poor and overworked -- but now this is true more than ever. Many of us attending CUNY already work to be able to afford food, the Metrocards that take us to our classes and jobs, and struggle to pay their rent or their share of bills. So our question to the politicians claiming to represent us with our "best interests" at heart is, why? Why raise tuition when students are already saddled with thousands of dollars in loans and hundreds of hours of often minimum wage pay to afford college? Why make higher education more unattainable? Why change what CUNY fundamentally is - an affordable, good quality higher education for all. These questions and more are the reason that we, the

Undergraduate Student Government of the City College of New York, stand with NYPIRG and our peers and colleagues within CUNY to fight against tuition hikes and are demanding a tuition freeze." – Tammie David, Vice President of Public Affairs, City College of New York Undergraduate Student Government

"The recent efforts by Governor Cuomo to destabilize CUNY are evidence of his unprincipled and untrustworthy position as a politician. The recent comments from his office calling the budget cuts "union propaganda" show that students and faculty must work together to preserve the largest urban university system in the United States, which is the City University of New York. The New York Water Environment Association, City College Student Chapter have signed on to stop cuts to CUNY included in Governor Cuomo's Executive Budget." -- Lawrence Vulis, President, New York Water Environment Association, City College Student Chapter
